SESSION 33

CONSISTENCY STRATEGY

S. Padma Jothi,

II B. Com (Honours).

Strategy Conditions

Strategy Element	My Planned Condition
Strategy Used	Combined Strategy
Market Condition Required	Price should show an upward movement
Entry Condition	Enter when the price shows a chance to rise
Confirmation Condition	Check price movement and indicators
Exit Condition	Close the trade when the profit target is reached
Stop-Loss / Risk Condition	Use a stop-loss to control risk
Other important Condition	Follow the plan and avoid rushed decisions

Strategy Consistency Summary

Particulars	Observation
Total Trades Reviewed	5
Trades where Conditions Were Followed	3
Trades where Strategy Conditions Were Not Fully Followed	2
Trades with Clear Strategy Deviation	2
Main Type of Deviation	Open position is showing an unrealized loss.
Most Common Consistent Behaviour	Following the Long position strategy.
Most Common Inconsistent Behaviour	Keeping an open position with an unrealized loss.

Strategy Consistency Analysis

Area	Consistent	Inconsistent	Evidence
Market Condition Selection	✓	—	All visible trades were long positions.
Entry Condition	✓	—	Entry prices are recorded.
Confirmation	—	✓	Confirmation indicators are not visible.
Exit Approach	✓	—	Five completed trades show

			positive profits.
Trading Plan Adherence	✓	—	Same BTCUSD Long strategy was followed.
Execution Discipline	✓	—	Trades have recorded entry and exit details.
Avoiding Impulsive Decision	—	—	Followed the same BTCUSD Long strategy and recorded entry and exit prices for completed trades.

Identify Consistent Behaviour

Consistent Behaviour	Evidence
Followed one direction	All visible trades were Long

Identify Inconsistent Behaviour

Inconsistent Behaviour	Evidence	Possible Reason	How Can it be Prevented?
Open Position Loss	One open position is showing an unrealized loss.	Market price moved against the position.	Monitor open positions carefully.

Strategy Improvement Plan

Area To Improve	Current Problem	Action for Future Trades
Risk Management	Open position shows an unrealized loss.	Set appropriate stop-loss levels.
Market Analysis	Market indicators are not visible.	Study price movements and trends.
Exit Timing	One position is still open.	Follow planned exit conditions.
